BEST Caramel® Munich II

Crop: 2021

BEST Caramel® Munich II marks the center of the BEST Caramel® Munich line in terms of color. In addition to the darker color, the aroma components reminiscent of almond and bread crust also increase. Subtle toasty notes complement the profile. Due to the special caramelization process, a very uniform caramel formation in the grain is achieved. This facilitates the brewing process and contributes to a pleasant aroma profile of the resulting beers.

Flavor: Roasted almonds, bread

The below mentioned figures are subject to harvest-specific variations. All analysis are performed by independent, certified laboratories according to MEBAK „Brew-Technical Analysis Methods“.
