BEST Heidelberg

Crop: 2021

BEST Heidelberger is a malt made from special, two-row malting barley varieties that are less prone to coloring during the malting process. BEST Heidelberger is particularly suitable for the production of especially light beers. The protein content of the malt is usually somewhat lower than that of a classic Pilsener malt from the corresponding harvest, but it has high extract values and very active enzymes.

Flavor: Typical malty taste, lemongrass

The below mentioned figures are subject to harvest-specific variations. All analysis are performed by independent, certified laboratories according to MEBAK „Brew-Technical Analysis Methods“.
