Indie Hops
FLAVOR PROJECT

Lórien

Magical, exhilarating, and festive—Lórien® is the third commercial hop launch from the Indie Hops Flavor Project.

The second—Strata®—was destined for a lead role in IPAs and DIPAs. Lórien is destined for lead roles as well, but at the opposite end of the hop and beer spectrum.

A Sterling female pollinated with a German male, Lórien brings a classy combination of old world and new to craft brewers worldwide. It was advanced through our hop development process with crisp, refreshing low-gravity beer in mind. This hop has a unique ability to let the tasty malt platform shine, yet contributes an addictive finish of mixed citrus zest, fresh melon, sweet hay and wildflowers—all capped by a cinnamon spice that cleanses your palate and lures you back for more.

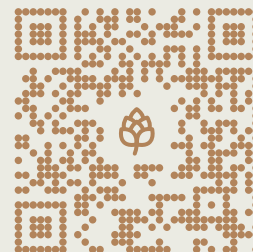

Named after Tolkien's mythical land of the elves, Lórien imparts clean hop flavor in low-gravity beer. Tangy fresh fruit and the feeling of a summer meadow near a cold mountain stream, Lórien is conducive to celebration and appetite. Low alpha and squeaky clean, leave the taps open and let 'er flow!

Chemistry

→ Alpha Acid – 4% - 5.5%

→ Beta Acid – 7% - 9%

→ Total Oil – 1.8 - 2.2ml / 100g

**Available through Loughran
Brewer's Select in the UK.**
